Re: **VPDES Permit No. VA0022985**  
**Town of Stuart WWTP**

Dear Mr. Dalton:

Your VPDES permit is enclosed. A Discharge Monitoring Report (DMR) form is included with the permit. This permit supersedes the previous VPDES Permit VA0022985 issued to this facility. The first DMR required by this permit for monthly monitored parameters is due on **September 10th** for the month of August 2013. If you still have DMR data to report as required by the previous permit, please submit it as an attachment to the first DMR required by this permit. Monitoring results on the DMRs should be reported to the same number of significant digits as are included in the permit limit for the parameter.

DEQ has launched an e-DMR program that allows you to submit the effluent data electronically. We expect every permittee to use e-DMR as permits are reissued and exceptions will only be done on a case by case basis. There are many benefits to both DEQ and the permittee when e-DMR is utilized for submissions:

- 1) Fewer revisions for data since the e-DMR program automatically flags omissions before the data are submitted;
- 2) Cost savings on postage, copying, and paper;
- 3) No concerns about using the most current DMR: e-DMR refreshes the required parameters automatically when changes are needed;
- 4) Submittals can be made on a timelier basis; and

- 5) Electronic signatures from multiple people are allowed and e-DMR can be accessed from multiple computer locations.

We ask that you apply for e-DMR participation now although you may apply at any time. The following website provides details and our Roanoke regional e-DMR administrator (Cathy Kibler, 540-562-6779, [www.cathy.kibler@deq.virginia.gov](mailto:cathy.kibler@deq.virginia.gov)) can also assist you:

Said petition must meet the requirements set forth in 9 VAC 25-230-130 (Procedural Rule 1-- Petition for formal). In cases involving actions of the Board, such petition must be filed within thirty days after notice of such action is mailed to such owner by certified mail.
